BLACK HIGHER EDUCATION  
**AGENDA**

## ABOUT UNCF UNITE

---

UNCF UNITE is the most influential gathering in Black higher education, where thought leaders and dynamic doers—HBCU/PBI leaders, educators, researchers, advocates, students and practitioners—come together to learn, share ideas, build connections and transform institutions.

UNCF envisions a nation where everyone has equal access to a quality college education. Integral to this is the work of our Institute of Capacity Building, which partners with Black colleges and universities to propel their pursuit of student success, community advancement and the fight for equity and social justice.

To fully realize the promise of Black higher education, the UNCF Institute for Capacity Building hosts the UNCF UNITE summit each year as the premier platform to support one another and unite around a comprehensive, assertive strategy of institutional transformation and continuous improvement.
